

Biosecurity Kits and F10 products

Price list for community groups

Product	Use	Price (GST inc.)
Large kit with F10 concentrate	for a car, enough F10 for regular use over 3 years	\$38
Small kit with F10 concentrate	for a backpack, enough F10 for regular use over 3 years	\$36
200 ml of F10 concentrate	Makes 25 L of dilution- used by kayakers or fishers to soak gear	\$17
1L of F10 concentrate	Makes 125 L of dilution – used by contractors to wash machinery and other equipment	\$63

We have a small number of kits and F10 concentrate bottles in stock, and some products will need to be ordered in if there is large demand.

Free kits and other products will be provided to community groups who can demonstrate how they will use them to protect Tasmanian natural values while undertaking NRM activities. No more than 2 free kits/products will be supplied to an individual group. See NRM South grants page for more information.
